

POLICY

BASIC GUIDELINES FOR TREATMENT

DEN 001

Annually, the Chief Dental Officer will be responsible for the review of the basic guidelines for treatment. These basic guidelines for treatment are located in the Standard of Procedures Manual. Following evaluation, a report will be documented on the compliance check list and given to the Quality Improvement committee. The manual will include the following procedures at minimum.

- new patient exam
- basic guidelines for radiographs
- basic guidelines for chart entries and procedure notes
- basic guidelines for Nitrous Oxide Use
- basic guidelines for emergency treatment
- basic guidelines for operative procedures
- basic guidelines for endodontic procedures
- basic guidelines for oral surgery and dental extractions
- basic guidelines for removable prosthetics
- basic guidelines for fixed prosthetics
