POLICY

NEW PATIENT APPOINTMENT POLICY

DEN 005

It is the policy of the Bullhook Community Health Center (BCHC) to provide as comprehensive a scope of services as possible to the populations we serve and to deliver those services in accordance with BCHC values and mission statement. It is the policy that when a patient receives a new patient exam, that a comprehensive treatment plan be developed, and that the treatment is begun and completed within a year of the date the treatment plan was created. The patient receiving a new patient exam then becomes an "established patient".

Cindy Smet

CHIEF EXECUTIVE DIRECTOR
